A GAME-CHANGING BUSINESS FACILITATOR

YUMI is a new-generation device for use as a payment terminal and as a business platform for approved apps. It is for attended use in indoor retail environments. Thanks to its ability to rotate a full 360 degrees and its Android capabilities, YUMI revolutionizes merchant-customer interactions by meeting the customer's needs to provide a new, energizing, efficient shopping experience.

READY FOR A CASHLESS WORLD

- Supports cards, mobile/contactless payments and alternative payments
- Suitable for payments with or without PIN
- Supports retail and payment applications such as loyalty schemes, couponing, e-wallets
- Accepts all forms of electronic payment, with integrated contactless card/device reader, chip-card reader and triple-track magstripe-card reader

OPTIMISED CONFIGURATIONS

The YUMI can be integrated with local POS systems or used as a standalone terminal. It is available in two configurations:

- Countertop, mains or Power-over-Ethernet powered – wireless communications out of the box, plus a variety of wired connections.
- Portable, battery powered and using an appropriate wireless communication mode. The mains adaptor is used to charge the battery, even outside the terminal.

BIG PERFORMANCE, SMALL FOOTPRINT

The device is powered by a fast processor running Android, delivering unequalled performance and flexibility. This reliable operating system is embedded in many platforms, devices and systems worldwide. Built-in power management reduces environmental impact and operating costs.

ROBUST AND RELIABLE DESIGN

Drop-resistant, scratch-resistant Corning® Gorilla® Glass delivers a highly responsive screen and outstanding readability. Chip-card and magstripe-card readers are selected for proven, long-term reliability.

ATTRACTIVE USER INTERFACE

YUMI maximises customer-merchants interactions and enriches the user experience with applications and multimedia capabilities:

- Payment and business applications for merchants and customers
- Moving-image advertising
- Easy integration with POS equipment
- Advanced audio/video coding
- Image libraries, 7" colour touchscreen
- GUI optimised for 360° use, driven by accelerometer

SAFE AND SECURE

YUMI meets the latest hardware and software security requirements and has an optional PIN privacy shield.

- PCI PTS 5.x certified
- Complies with SRED and Open protocol modules
- Supports point-to-point encryption (P2PE) solutions
- Delivers optimal processor security
- Includes a Kensington slot for additional physical security

TERMINAL MANAGEMENT SERVICES

All standard terminal management services are available via XENTURION, which can also be used to download apps and manage a whitelist of approved URL for internet interactivity.

ACCESSORIES

			YUMI Countertop	YUMI Portable
	Stand	<ul style="list-style-type: none"> • The stand holds a YUMI countertop at a 45° angle in both portrait orientations – card-reader at top / NFC at top – and uses a fixation plate that clicks on to the YUMI. The stand itself can be then fixed to the counter with screws or non-damaging options such as double-sided adhesive tape. The screw-holes required have exactly the same footprint as the screw-holes for a YOMANI. 	Optional	No
	Fixation plate	<ul style="list-style-type: none"> • Attach a fixation plate firmly to a counter or a wall, in the preferred orientation. The YUMI countertop then clicks on to the fixation plate. 	Optional	No
	PIN privacy shield	<ul style="list-style-type: none"> • The PCI-compliant PIN privacy shield prevents shoulder-surfing. It consists of a pair of flaps, which can be attached or removed at any time. 	Optional	Optional
	Revolving stands	<ul style="list-style-type: none"> • Several third-party suppliers offer a range of revolving stands that can save space and make the YUMI easier to use. Stands range from simple revolving stands to more sophisticated flip-over stands that make the most of the YUMI flexibility. 	Optional	No
